

Prof. Mieko Arisawa

Department of Organic Chemistry, Graduate School of Pharmaceutical Sciences, Tohoku University, Sendai, Japan

E-mail: arisawa@m.tohoku.ac.jp

Title: Transition-Metal-Catalyzed Synthesis of Organoheteroatom Compounds

Keywords: Organoheteroatom compounds, Catalysis, Equilibrium control

Education

1998-2001	Research Associate, Graduate School of Pharmaceutical Sciences, Tohoku University
2001	Ph. D., Tohoku University (Prof. Masahiko Yamaguchi)
2001-2010	Assistant professor, Graduate School of Pharmaceutical Sciences, Tohoku University
2010-2013	Lecturer, Graduate School of Pharmaceutical Sciences, Tohoku University
2013-	Associate Professor, Graduate School of Pharmaceutical Sciences, Tohoku University

Mieko Arisawa was born in Yamagata, Japan in 1974. She received her Ph.D. from Tohoku University in 2001 under the direction of Prof. Masahiko Yamaguchi. She belongs to the group of Prof. Masahiko Yamaguchi of Tohoku University to date. She received the Award for the Sankyo Chemical Co.,LTD. Award in Synthetic Organic Chemistry, Japan (2001), The Banyu Young Chemist Award (2002), and The Incentive Award in Synthetic Organic Chemistry, Japan (2010). Her current research interests include development of transition-metal-catalyzed efficient synthesis of organoheteroatom compounds, and development of novel equilibrium control methods.
